

ENGLISH

TL1MKT SL Products and Services Privacy Policy

TL1MKT SL ("TL1MKT SL", "we," "our," or "us") is a data technology company that delivers data analytics and advertising solutions across industries. Our partners ("Data Partners") are mobile application providers, media and technology platform and others that have access to certain customer information ("User Data") that they wish to monetize by using our services. Our services include data analytics and advertising services ("Services"). You can learn more about our Services on our website at www.tl1mkt.com.

Our clients ("Clients") are businesses, including brands and agencies ("Advertisers"), owners of media properties ("Publishers"), and other companies that send targeted advertising to consumers. By using our Services, our clients are able to address a particular audience and tailor advertisements to the likely interests and preferences of such audience.

We work to ensure that our Services respect users' privacy rights. To accomplish this goal, we adhere to privacy-by-design and privacy-by-default principles throughout the process of designing, building, and delivering our Services.

We do not process information that directly identifies a particular individual such as an unencrypted name, address or government-issued ID number. However, whether or not User Data we receive are considered personal or personally-identifiable data depends on, among other factors, the definition that applies in a user's physical location. For example, in some locations a user's IP address may be deemed to be personal data, while in others it is not.

By law, we are required to provide you with information regarding

- how and on what legal basis we use and disclose your personal data;
- how we take care for your privacy rights specific to your personal data;
- how you can reach us in case you have any concerns regarding this privacy policy ("Policy") or the way we are handling your data.

The terms of this Policy apply to all User Data to the extent it contains your personal data as defined in the applicable laws and regulations.

This Policy does not only apply to information collected by our website www.tl1mkt.com

This Policy also does not apply to information collected by our Data Partners or other third parties who may provide information to us, as their information handling practices are covered by their own privacy policies.

This Policy may change from time to time, so please check back periodically to ensure that you are aware of any changes in our processing of your Personal Data. If at any time in the future we plan to use Personal Data in a way that differs from this Policy, we will post Policy edits here and place notices on other pages of the Site as applicable, or by other means if required by law. You are responsible for ensuring that you are aware of the most recent version this Policy. This Policy was last modified on: July 18th, 2024.

The Policy's wording can be technical; in case you have any questions, do not hesitate to write to privacy@tl1mkt.com

Data Categories we Receive and Use

We receive the following categories of User Data from our Data Partners:

- mobile advertising device IDs such as Apple's Identifier For Advertisers (IDFA) and Google Advertising ID ("Advertising ID / Ad ID"); cookies;
- hashed email addresses,
- demographic information like age, gender, city/region ("Demographic Data");
- mobile app usage data about apps installed/accessed on a user's device and app events and browsing data such as browsing URLs ("App Usage and Browsing Data"); -purchase data; -geolocation data.

Our Data Partners may collect data directly from users (both online and offline) or receive data from third parties.

We request that our Data Partners provide users with all required information about the use of their data and provide an opt in / opt out option according to applicable laws and regulations.

We may also use cookies, pixels and similar technologies to collect users' Advertising IDs or cookies' identifiers ourselves. In the course of providing Services we receive access to IP addresses and Advertising Bid Requests.

When we obtain different User Data pertaining to the same device from multiple Data

Partners, we aggregate such User Data and store it against the same Advertising ID ("Ad IDs") or cookie. TL1MKT SL also maintains a separate ID inventory, which connects the User Data into a common ID and is an internal pseudonymous identifier.

We enhance User Data to create de-identified data segments and aggregate such segments into segment lists or Ad ID / cookie lists based on our Clients' preferences. We then share such lists with our Clients to enable them to effectively target the relevant users.

We do not interact directly with users or their devices, unless a user sends us a deletion request along with their Ad ID, as described below under "Choice and Control Rights you Have".

Below we describe the User Data categories in more detail.

Advertising IDs

Advertising IDs (“Ad IDs”) are user-resettable, unique, anonymized identifiers for advertising. Ad IDs identify a specific device and are implemented both on Apple iOS (“Identifier for Advertising” / “IDFA”) and Google Android (“Advertising ID”).

We obtain Ad IDs associated with de-identified User Data from our Data Partners. Ad IDs are then used by our Clients to identify advertising requests and to deliver relevant advertisements.

We may also use Ad IDs to establish a relationship between different User Data attributes pertaining to the same user. For example, if we obtain User Data that indicates a certain user is between 25 and 30 years old, and later learn from another Data Partner that the user of the same device is interested in a healthy lifestyle, we combine this information against the same Advertising ID (“Ad IDs”) or cookie.

Cookies

An HTTP cookie (also called web cookie, Internet cookie, browser cookie or simply a cookie) is a small piece of data sent from a website and is stored in the user’s web browser while the user is browsing.

We set third party cookies on behalf of Publishers who provide space for the display of advertising within websites.

We may use cookies to establish a relationship between devices or data pertaining to the same user. If we already have information about a device’s user, we may link the information stored in cookies to the device’s Ad ID.

We use this information to facilitate the delivery of our Clients’ targeted Ads.

Hashed Email Addresses

Some Data Partners or Clients may provide their offline data such as email addresses and phone numbers. We require that such data are hashed using secure hashing algorithms prior to sharing with TL1MKT SL.

We use hashed emails or phone numbers to establish a relationship between offline and online user profiles pertaining to a certain user. For example, our Client would like to run an advertising campaign on mobile devices targeting users whose email addresses and / or phone numbers the Client already has. However, without respective Ad IDs the Client cannot target the desired audience. By comparing hashed email addresses and phone numbers provided by the Client with the User Data we have from our Data Partners, we can match hashed email addresses or phone numbers to Ad IDs corresponding to the same user. As a result, we have a list of Ad IDs corresponding to the list of users the Client would like to target.

Demographic Data

We may obtain demographic User Data from our Data Partners, such as:

- user demographics (e.g., age or age range and gender);
- general geographic area of the billing address and zip code;
- predicted or actual income tier;

-other demographic information that was received or collected by our Data Partners. TL1MKT SL uses this information to create demographic segments about users, for example users who are “males, 20 to 34, living in Barcelona.” We connect segments with Ad IDs and cooki id's so that our Clients can reach their target audiences on mobile devices and web browsers.

App Usage and Browsing Data

We may obtain App Usage and Browsing Data from our Data Partners, such as:

- apps installed/accessed on a user's device;
- app events such as purchases or sign-ups;
- browsing data such as Uniform Resource Locators (“URL”s).

URLs are web addresses, a specific character string that constitutes a reference to a resource. Most web browsers display the URL of a web page above the page in an address bar.

We transform App Usage and Browsing Data into aggregated segments based on interests or purchase intent (such as Sports Enthusiast, Health & Fitness Buffs) which are of interest for our Clients.

Purchase Data

We may obtain purchase data from our Data Partners, such as:

- items you have bought in stores;
- items you have bought online;
- items you have put in a shopping basket online.

Geolocation Data

We may receive data from Data Partners about the physical location of a specific device, including latitude-longitude coordinates obtained through GPS tools, Wi-Fi or cell tower triangulation techniques.

The location data we receive from Data Partners may be generalized, non-precise location data, or we may render the location data non-precise, in order to provide generalized location data to our Clients. Our Clients may use inferences from this information to send localized Ads or targeted Ads.

Advertising Bid Requests and IP Addresses

In real-time bidding (“RTB”), Publishers send advertising bid requests (“Bid Requests”) in real-time to Advertisers, indicating that they have an open advertising space (“Impression”) to sell. The Impression is auctioned among interested Advertisers and sold to the highest bidder.

Bid Requests from mobile apps usually contain an Ad ID alongside information such as the IP address, type of the Impression (banner, audio, video), format, app, publisher, device, etc. We collect and use the Bid Request and Ad ID in order to participate in the RTB process on behalf of our Clients.

We render IP-addresses we receive as part of the Bid Requests imprecise to prevent the identification of a user. Our Clients may then use de-identified IP addresses to localize Ads.

Legal Basis for Processing Personal Data

Our Services enable our Clients to tailor advertising you see on your mobile device to your interests and preferences. As a result, the number of ads that are not relevant or of interest to you will be reduced.

Our basis for the processing of users' data is consent.

Any processing of your personal data by TL1MKT SL is subject to your rights of choice and control as explained below.

With Whom Do We Share User Data

We share User Data with the following categories of Clients:

- brands and agencies ("Advertisers");
- owners of media properties ("Publishers") and -other companies that send targeted advertising to mobile consumers;
- third party data platforms such as Demand Side Platforms (DSPs), Data Management Platforms (DMPs), advertising marketplaces, ad networks etc. ("Data Platform").

We may share your User Data with third party vendors that help us extract valuable insights from raw User Data. For example, if TL1MKT SL receives raw app ID like 123456, this information in itself is not useful. Therefore, we use a third party engine to convert the numerical ID to the actual app name (e.g. "Gardening Advice App") which can be used for the purposes of targeted advertising. Similar engines are used for making sense out of Browsing Data. In all of these processes, only the App Usage and Browsing Data are sent to external vendors who send us back the processed output. No identifiers such as Ad IDs, cookies, hashed email addresses or phone numbers are shared with third party vendors.

We store User Data in data centers provided by third parties.

We also share your User Data information with our affiliates in Spain that provide technical support and help TL1MKT SL operationally perform the services. We will also disclose your User Data in response to valid legal processes, for example, in response to a court order, a subpoena or other legal request for information, and/or to comply with applicable legal and regulatory reporting requirements. We also may disclose your information where we believe it is necessary to investigate, prevent, or take action regarding illegal activities, suspected fraud, situations involving potential threats to the physical safety of any person, or to verify or enforce compliance with the policies governing our products and/or services and with applicable laws, or as otherwise required or permitted by law or consistent with legal requirements. We are required to disclose Personal Information in response to lawful requests by public authorities, including to meet national security or law enforcement requirements.

In addition, we may transfer your information to an entity or individual that acquires, buys, or merges with us, or our affiliates. In these cases, we will require the acquiring company to carry on the material terms of this Policy, including the requests for account deletion.

When we Transfer User Data Internationally

When we share User Data with the recipients described above, such sharing may constitute a transfer outside of your home location. By law, we are required to ensure that the level of protection guaranteed for your personal data by the European laws is not undermined by such transfer. Some recipients of data may be participants of programs like the Privacy Shield which enables them to ensure the appropriate level of protection. In other cases we enter the EU Standard Contractual Clauses with respective User Data recipients.

How We Protect Personal Data

We take appropriate technical and organizational safeguards to protect any personal data we receive from theft, loss, and unauthorized access. We follow generally accepted standards to protect personal User Data throughout the entire use cycle starting from the initial transfer until deletion.

However, no method of transmission over the Internet, or method of electronic storage, is 100% secure.

Choice and Control Rights you Have

Your personal data belongs to you. You have the right to erase any User Data that we may have in our systems or restrict its processing. The options to exercise these rights are described below.

- You may opt-out from the processing of your personal data directly with the mobile operator or another Data Partner (please refer to their respective privacy policy).
- You may opt-out from targeted advertising by selecting the “Limit Ad Tracking” on iOS or “Opt-out of interest-based ads” on Google Android. In this case, we will keep your User Data until you request us to delete it, but we will not use it for targeted advertising purposes, and activity on your mobile device will be effectively invisible to us. You may reset the Ad ID by selecting the option “Reset Advertising Identifier” on Apple iOS or “Reset Advertising ID” on Google Android. This will delete your current Ad ID from your device and replace it with a new Ad ID. As a result, we will not receive any Bid Requests containing the old Ad ID anymore. After a certain amount of time we will delete the old Ad IDs and related User Data. However, we may receive access to your new Ad ID and match it with other User Data we might receive from our Data Partners over time.
- You may opt out by clearing or blocking our cookies in the settings of your mobile browser. In this case, we will keep your data, but we will not be able to use it to target your device when you are browsing mobile websites. However, regardless of the deletion of cookies, your device can still be targeted when you are using apps on the basis of your Ad ID.

-Users may delete data associated with their Ad ID by submitting their Ad ID to our Privacy Team privacy@tl1mkt.com. We will delete all User Data associated with the submitted Ad ID. This will delete all related data and prevent any future collection and use of data associated with the Ad ID. If we did not have your Ad ID, but had some other data such as cookies, hashed email addresses or hashed phone numbers, we will keep this data unless our Data Partner informs us that these have to be deleted.

-You can check the privacy policy and optout options of the partners we work with at the following urls:

By using our service, you agree to the collection and transfer of information by “TL1” as data controller as defined in the GDPR. Your information will be provided to this list of vendors which processes your data as independent data controller. Your other Rights

Apart from the rights to require the deletion of your data or restriction of processing, you have the right to access your personal User Data, to request rectification of your personal User Data, to lodge a complaint with a supervisory data protection authority and the right to data portability. In order to enforce one of these other rights, please submit your request together with your Ad ID to our Privacy Team privacy@tl1mkt.com

Information Retention

We retain data until the occurrence of the following events:

- expiration of the retention period according to the TL1MKT SL retention policy;
- request from a Data Partner to delete certain User Data; or -the user submits his Ad ID to us for deletion of associated data.

Children's Privacy

We do not knowingly collect, use, or share:

- Data about users under the age of thirteen (13); and
- Data about past or current activity on applications directed at children under the age of thirteen (13).

Your browser may offer you a "Do Not Track" option, which allows you to signal to operators of websites and web applications and services (including behavioral advertising services) that you do not wish such operators to track certain online activities, over time and across different websites. We do not honor "Do Not Track" signals.

Contact

TL1MKT SL.net Privacy Policy

TL1MKT SL ("TL1MKT SL," "we," "our," or "us") is a data technology company that delivers innovative, device-centric, and privacy-led data analytics and advertising solutions across industries. TL1MKT SL is committed to protecting the privacy of visitors to our website www.tl1mkt.com (the "Site").

This Privacy Policy covers how we collect, use, retain, disclose and transfer your information that may be collected on the Site. You may submit information via our contact forms. Some information may also be gathered as you navigate the Site. Whether or not the information we receive is considered personal or personally identifiable information ("Personal Information") depends among other factors on the definition that applies in your physical location. For example, in some locations your IP address may be deemed to be personal data, while in other it is not.

By law, we are required to provide you with information regarding how and on what legal basis we use and disclose your personal data, your privacy rights specific to your personal data, and how you can reach us in case you have any concerns regarding this Policy or the way we are handling your data.

This Policy may change from time to time, so please check back periodically to ensure that you are aware of any changes in our processing of your Personal Information. If at any time in the future we plan to use Personal Information in a way that differs from this Policy, we will post those changes here, or by other means if required by law. You are responsible for ensuring that you are aware of the most recent version this Policy. This Policy was last modified on: February 28th, 2018.

How you can Contact us

TL1MKT SL is the data controller of Personal Information collected via this Site in the sense of European privacy laws and CCPA. You can find our contact details in the Imprint section linked at the bottom of the website.

If you have any questions or comments, or if you would like to exercise your rights as described below, or if you have a concern about the way in which we have handled any privacy matter, you may contact us at: privacy@tl1mkt.com

Why we Collect and Use your Information

When you write us an email, submit your personal details via our contact form or as part of a job application, you consent to the collection, use and retention of your Personal Information as explained in the Policy.

Personal Information you submit to us includes:

- name;
- email address;
- contact details;
- company you work for;
- you concern;
- Personal Information in the documents that you send or submit to us.

Besides that, we also collect and use certain Personal Information for our legitimate business purposes such as visitor statistics, improvement of this Site, and advertising of our services.

Personal Information we collect without asking for your consent in advance may include:

IP address;

URL addresses of this Site;

date you visited this Site.

It is always your choice whether or not to provide us with Personal Information. If you choose not to provide the requested information you may not be able to access certain features on our Site. You may access, change, modify or delete your information at any time as described below.

Personal Information you provide

While visiting our Site, you may provide us your Personal Information.

If you contact us through our contact form, we collect your name, your company and email address so we can respond to you.

We retain this information as long as necessary for our above mentioned business purposes.

Cookies and Other Tracking Technologies

When you visit the Site, we use “cookies.” A cookie is a small text file that a website saves on your computer or mobile device when you visit the site. It allows the website to remember your activities and preferences (such as login, language, font size and other display preferences). Cookies do not typically contain any information that personally identifies a user but, Personal Information that we may store about you, may be linked to the information stored in and obtained from cookies.

Cookies may be either “persistent” cookies or “session” cookies: a persistent cookie will be stored by a web browser and will remain valid until it reaches its expiry date, or it is deleted by the user before the expiry date; a session cookie, instead, will expire at the end of the user session, when the web browser is closed.

You can control and/or delete cookies as you wish – for details, see aboutcookies.org. You can delete all cookies that are already on your computer and you can set most browsers to prevent them from being placed. If you do this, however, you may have to manually adjust some preferences every time you visit a site and some services and functionalities may not work.

If you disable your web browser’s ability to accept cookies, you will be able to browse the Site, but will not be able to access or take advantage of all the features and services on the Site.

How we Share Personal Information

We disclose your Personal Information to third parties for direct marketing purposes. We may disclose your Personal Information in the following cases:

Service providers

We may disclose your Personal Information to third party vendors who help us operate the Site. These third parties are obligated to comply with applicable data protection laws and applicable regulations.

Disclosure required by law

We will disclose your information in response to valid legal process, for example, in response to a court order, a subpoena or other legal request for information, and/or to comply with applicable legal and regulatory reporting requirements. We also may disclose your information where we believe it is necessary to investigate, prevent, or take action regarding illegal activities, suspected fraud, situations involving potential threats to the physical safety of any person, or to verify or enforce compliance with the policies governing our products and/or services and with applicable laws, or as otherwise required or permitted by law or consistent with legal requirements. We are required to disclose Personal Information in response to lawful requests by public authorities, including to meet national security or law enforcement requirements.

Business transitions

In addition, we may transfer your information to an entity or individual that acquires, buys, or merges with us, or our affiliates. In these cases, we will require the acquiring company to carry on the material terms of this privacy statement, including the requests for account deletion.

Protection of your Information

We take appropriate physical, technical and organizational safeguards to protect any Personal Information from theft, other loss, misuse, and any unauthorized access, copying, collection, use, disclosure, alteration or destruction. We follow generally accepted standards to protect the Personal Information throughout the entire use cycle starting from the initial transfer till deletion.

However, no method of transmission over the Internet, or method of electronic storage, is 100% secure.

Children's Privacy

Our Site is directed to individuals who are the age of majority or older in their jurisdiction. We do not knowingly collect, use, or share:

- Data about users under the age of thirteen (13); and
- Data about past or current activity on applications directed at children under the age of thirteen (13).

If you believe your child has provided information to the Site, please contact us using the information provided below.

If we learn we have collected or obtained Personal Information of individuals under 13, we will delete that information.

Access to, Rectification, Restriction of Processing, Portability and Erasure of your Personal Information

You may at any time ask for the deletion, review, or rectification of your Personal Information by contacting us using the contact information provided by this Policy. You may also ask us to limit or suspend the use and processing of your Personal Information when:

- you request us to verify the accuracy of your information,
- our use of your Personal Information is unlawful, but you do not want such information to be deleted, and
- we no longer need your Personal Information, but you need this information for the establishment, exercise or defence of legal claims.

Upon your request, we will deactivate or delete your account and contact information from our active databases, consistent with the Site's functionality. Such information will be deactivated or deleted as soon as practicable based on your account activity and accordance with our deactivation policy and applicable law.

You may also request us to provide you your Personal Information in a structured, commonly used and machine-readable format or to transmit this information to another company or individual.

Apart from the rights described above you have the right to lodge a complaint with a supervisory data protection authority.
